U.S. Census Bureau figures for 33 states and HUD Fair Market Rent (FY2026) for 162 market pages: the same sourced data behind usetruicap.com/states and usetruicap.com/markets.

1. State data - median home value, real estate taxes paid, renter share (ACS 2024)
2. HUD Fair Market Rent (FY2026) - 2-bedroom and 3-bedroom, by market
3. Sources - every table and page these numbers come from

Reference data, not quotes or recommendations. State figures describe owner-occupied homes statewide, not a specific property's value or tax bill. HUD Fair Market Rent is an area benchmark, not what a specific unit rents for. Verify a property with current leases, the actual tax bill, condition, title, and written loan terms before you offer.

HUD Fair Market Rent (FY2026) by market

Fair Market Rent is HUD's estimate of the 40th-percentile gross rent for standard-quality rental units in an area, used to determine payment standard amounts for the Housing Choice Voucher program: a percentile, not an average of current asking rents. Each figure is for the HUD FMR area that contains the market; each market's [usetruecap.com/markets](https://www.usetruecap.com/markets) page links HUD's documentation page for its area, and ZIP-level Small Area FMRs where HUD publishes them.
